This is a song I highly recommend to anyone who wants to work on some less common chords because there are some interesting ones in here. I'd also recommend this to anyone... because Plush is a good song.... Maybe you came to this game because you played Transport Tycoon games in the past and steam suggested Train Valley 2 to you. However, Train Valley 2 is not a tycoon game and if you expect something like TTD etc, then you will be disappointed. As was with me.

Lately, I gave the game a second try while not expecting anything from it. Et violá, Train Valley 2 is real fun. Its rather are puzzle game than a tycoon game and you can play it for hours; either by beating yourself at the different levels or by creating our own levels for the workshop. I very much recommend this game!. Good, If I say good is good. Anyway I love it.. Basically Binding of Isaac but platformer. I like.. Tons of typos. Background music that doesn't loop properly (there's an annoying click and a break when it loops, and it loops every 10 seconds), annoying gameplay where you die and die and grind and have to collect money just to make it through the first level. No thanks. Play Space Run instead, you'll thank me later.. The Controls are inaccurate and irresponsive af, the level design is trash. In order to get all achievements you have to run through the same ♥♥♥♥♥♥ level multiple times and with the controls it makes for an insanely horrendous game.. It's rare to find games that are so horrible, it just isn't even worth writing about them. Monster Trucks Nitro is one of those rare games.

---

Though I do think this is a good game fundamentally it is flawed. The concept is pretty cool. Here are my thoughts and make your own decision.

1. It should be more options for buildings, there are other methods of green energy other than solar and wind, so that should be expanded upon (unless it occurs in later levels im still just playing and going).
2. The Purification vs. Pollution mechanic needs to be elaborated on, trees are pretty crappy at removing pollution and the pollution can accumulate really really fast! There should be options to eliminate it better.
3. Nice weather and daytime mechanic for the green energy. But the night time lasts pretty long compared to day time so take that as you will.
4. Pollution is difficult to control even on the easiest settings, this relates to #2 but still. There should be a gauge to allow the player to see the balance between how you pollute vs how you repair the environment.. Weeeell, I don't really recommend this game. It has aged, but not exactly gracefully. It's not horrible either. But it just isn't really good either.

For 5\$20, it's too little. I bought it in the Popcap Bundle, so it was alright, I guess?

Still, for demanding 5\$20 and then giving you relatively monotonous gameplay... it's too much money. It's just too much for so little actually happening. That's why I wouldn't recommend buying this game.

Oh, and just for the sake of completion: You play as one of four heroes to save the Iggles, a race of furry little creatures color-coded and caught in bubbles by some kind of evil force. Yeah. That's the sum of it. You move through a little labyrinth, collect the Iggles, avoid the baddies, and send the Iggles home with the appropriate home fields.

And... that's it. For 101 levels in Adventure mode. Yay.. only got it because i got a coupon...the game is boring. If you have a 90% off coupon for this game and you like Bejeweled, then go for it! Other than that It's not worth \$9. its good game. Hell no this ♥♥♥♥ing game wont even show the surface i wouldnt even reccomend it to sombody i hated ♥♥♥♥ this dev

Miney Company: A Data Racket **Beta 7 Delayed:**

Hello everyone! Unfortunately, due to labor shortage we weren't able to meet our April 27th deadline for Beta 7. As a change to our roadmap, we've decided to roll Beta 7 into our Final Release, due December 1st 2019. We are confident we'll be able to meet this deadline with the promised features.

Again, thank you for playing Miney Company and supporting independent games!. **Beta 5 date announcement - Friday June 15th:**

Hello all, I hope you've remembered to update your router's firmware, or at least turn your routers off and on again. As for us at Glass Temple Games, we've been working on the Beta 5 version of Miney Company, including fixing the re-centering option which didn't work on certain levels. For those curious about the new re-centering code:

```
// First, rotate gameplayDirector.playerGameObject.transform.eulerAngles = positionerObject.transform.eulerAngles;
gameplayDirector.playerGameObject.transform.Rotate(0.0f,-playerGameObjectOffsetAngle,0.0f); // Then position
gameplayDirector.playerGameObject.transform.position = positionerObject.transform.position;
gameplayDirector.playerGameObject.transform.Translate(-playerGameObjectOffset);. Beta 6 is Here!:
```

After a long wait, Beta 6 is finally available. In this update, we've added a couple new paddles, revamped the lobby, and improved visuals on other levels. As always, our Builder Bots are tirelessly working away at providing a better experience!

Thanks for sticking with us :). **Beta 6 Delayed Until October 1st:**

Hey everyone, I apologize for the delay of version Beta 6. We've decided to roll a few more things into it before releasing, rather than put off those features until Beta 7. We hope you'll find the delay worth it!. **Beta 4 Delayed Due To Utopia.net DNS Hijack:**

Hey folks, I'm sad to say we'll have to delay our Beta 4 release as our development team was hit by the [Utopia.net](https://www.uptopia.net) DNS hijack malware. We're pushing our Beta 4 release date to May 4th while we scrub our machines of the malware and do a security overhaul of our network. This may be a good opportunity to check to see if you have the malware yourself:

---

Use regedit to search for an entry inside **HKEY\_LOCAL\_MACHINE\SOFTWARE\Microsoft\Windows NT\CurrentVersion\NetworkList\Nla\Cache**'s subfolders named "[Utopia.net](https://utopia.net)". If it's there, congratulations, you're infected!.  
**Beta 6 Delayed Until September 9th:**

Hey folks, we apologize for the delay of releasing our Beta 6 update. We need a bit more time to put things together and sufficiently playtest. A stable build is a happy build!

**. Beta 5 has arrived!:**

We're proud to release the Beta 5 version of Miney Company! With the new update, you can find improvements such as:

- + Improved Re-centering (accessible from the Menu in the Lobby)
- + Collection counters on paddles to give a clearer idea of how many blocks are left to hit
- + Two new achievements (hit 100 popup ads and break 1000 blocks)
- + Cheaper store items (players should be able to buy something after every round)
- + Boss level easier to reach
- + Improved paddle redesign
- + Added Builder Bots to the Lobby, who tirelessly are doing something
- + Improved paddle interactions with ball

Thank you so much for playing and we'll keep you informed about the release date of Beta 6!
